DPF 510GTRX / MTRX

DPF 510GTRX/MTRX is a 3.2-mil (80 micron) calendered film with a tinted, removable pressure-sensitive adhesive and a low profile air-egress, lay-flat liner. With X-Scape Technology®, it ensures a bubble-free installation and a smooth, paint-like finish, making it ideal for promotional graphics and beyond. This film provides uniform ink receptivity across most printing systems, resulting in vibrant, high-quality graphics. Its light gray, clean removing adhesive facilitates easy application while providing sufficient opacity to cover existing graphics. For enhanced abrasion resistance, pair DPF 510GTRX/MTRX with Series 3510 overlamine. DPF510GTRX/MTRX is rated for outdoor durability up to 3 years (unprinted). Printed durability is dependent on the ink system used.

Unique Features:

- ▶ Low Profile X-Scape Technology® for Easy, Bubble-Free Installations
- ▶ Cleaning Removing Adhesive
- ▶ Exceptional, Vibrant Print
- ▶ Consistent Performance with High Heat Printers

Applications:

- ▶ Short-Term Interior or Exterior Signage
- ▶ POP / Trade Show Graphics
- ▶ Decals

Performance & Physical Data

Finish:	Gloss
Durability (Unprinted):	3 Years
Roll Widths:	1.37 m 1.6 m
Roll Lengths:	50 m
Adhesive:	Removeable (Tinted)
Release Liner:	Lay-Flat Polycoated with Low Profile X-Scape Technology®
Ink Compatibility:	Eco-Solvent Solvent Latex
Compatible Overlamine:	Series 3510
